

## History

On March 18th, 2014, the Commissioners Court voted to expand zoned parking to all parking facilities in the central business district. This policy will improve parking facility efficiency and reduce or eliminate the parking wait list. Current employees will continue to have guaranteed access to parking.

On September 2nd, 2014, the Commissioners Court approved new policy language and an implementation plan for the transition. The new policy took effect on October 1, 2014. The new policy and the implementation are both available at the bottom of the page.
