\*\* Our work week is calculated from Sunday through Saturday per the Fair Labor Standards Act (FLSA). This will generally cause a lag in receiving OT if the end of a pay period falls on a day prior to completing a full week. Occasionally, OT worked in one week will be paid over two separate periods. This happens when the 41st hour work occurs mid-week and the end of the pay period is also mid-week. The system will pay OT calculated at the close of the pay period and then re-calculate the OT once the week has been completed to ensure all OT in the work week is paid.
