

Do you have any ideas to make walking and biking better in the Northwest corridor?

The Capital Area Metropolitan Planning Organization (CAMPO) is conducting a study to develop a plan for bicycle and pedestrian accommodations near and across US 183 from MoPac in Austin to Cypress Creek in Cedar Park. This study will include a series of focus groups, public presentations, and an open house designed to engage and gather input from people in and around the area.

This study includes the development of a corridor plan for active transportation that could include: trails, sidewalks, bike lanes, and connecting streets in the corridor.

Why plan for walking and biking in the region?

Bicycling and walking is...

- Healthy
- Low cost
- Non-polluting
- An alternative to driving

This plan will make biking and walking safer, more comfortable, and more convenient.

Upcoming Meetings

CAMPO is holding a charrette work session to share background information, collect input from the community, and sketch ideas. There are several opportunities to stop by and learn more. Please join us as you are able. Information will also be posted on the website.

Location:

Balcones Country Club, 8600 Balcones Club Drive, Austin, TX 78750

Tuesday, October 11
Educational Presentation
and Public Input
5:30 to 7:30 p.m.

Thursday, October 13
Open House and Final
Presentation
5:30 to 7:30 p.m.

Stay Tuned

The second work session is scheduled for November 8-11, 2016. Details will be posted online once they are available. For more information, please contact:

REGIONAL ACTIVE TRANSPORTATION PLAN

The Capital Area Metropolitan Planning Organization (CAMPO) is the agency that coordinates regional planning efforts and approves the use of federal transportation funds in CAMPO's six-county region. CAMPO is responsible for coordinating with regional agencies and local governments to develop a 20+ year long-range plan and a four-year program of projects.
