

What's the Plan for Transportation in Travis County?

Travis County is developing a locally focused transportation plan to: identify transportation needs and solutions, incorporate future options and choices, and prioritize improvements in areas outside city limits. This Plan will define priorities through the year 2045, so there will be an emphasis on what we need today and what we will need in the future.

Travis County wants to hear your thoughts on current transportation needs and priorities, and those you would like to focus on for the future.
